

Energy Conservation Assistance Program

for non-profit housing providers

We're working together to help B.C. save energy.

 **BC Hydro**
Power smart

 **FORTIS BC**
Energy at work

The Energy Conservation Assistance Program (ECAP) provides **free** energy saving upgrades to non-profit housing providers in British Columbia. We offer your tenants energy saving products for their homes, professional installation, and customized one-on-one energy coaching sessions.

ECAP has helped over 400 non-profit housing providers in British Columbia improve the comfort, safety and energy use of their tenant's homes at no cost.

Program benefits:

- > Full service program, which includes professional installation of all products
- > No costs to you or tenants to participate
- > Flexible scheduling for upgrades in your tenants' homes
- > Lower energy bills and improved comfort for tenants
- > Dedicated support to help you and your tenants every step of the way
- > Third party quality assurance on product installations

Free in-suite upgrades may include:

- > LED light bulbs and nightlights
- > Door weatherstripping
- > Water-efficient faucet aerators and showerheads
- > Draftproofing
- > Carbon monoxide detector
- > Clothes drying rack or clothesline

Some homes may also qualify to receive:

- > An ENERGY STAR® refrigerator replacement
- > A high-efficiency natural gas furnace replacement (FortisBC gas customers only)
- > Insulation upgrades in the walls, crawlspace and attic

How it works

1

Work with our approved program partner **It's On Electric** to complete an application.

2

Once approved, you'll receive guidance and support from **It's On Electric** to help you with:

- > Promoting the program benefits to your tenants
- > Collecting application forms from your tenants
- > Scheduling and confirming appointments for upgrades

3

Each tenant will receive a visit from a program Energy Coach, who will install energy saving products and provide advice to help save energy and money at home.

4

If the tenant's home is eligible for insulation upgrades or a furnace replacement, additional visits will be coordinated and completed by our approved program partner **Ecofitt**.

5

Once upgrades are completed, tenants will receive a summary outlining what was installed in their home and the housing provider will receive an overall building report for all completed upgrades.

We're here to help

We'll provide tools and resources to ensure successful participation with your tenants, including:

- > Promotional materials for your building and social media
- > Communication templates for your emails and newsletters
- > Infographic summary report poster of all product upgrades completed in the building

Get started today

To learn more about ECAP or to start your application, contact our approved program partner **It's On Electric** at **1 855 560 3227** or email **ECAP@itsonelectric.com**.

Safety is our top priority. We've implemented a number of measures and updated our process before, during and after home visits and upgrades, to ensure the safety of all participants, program staff and the community. Learn more at bchydro.com/ecapsafety-ioe.
