

Energy at work

FORTIS BC™

We've got

Rebates

To help make
non-profit housing
more comfortable
and energy efficient

Help yourself to savings

If you're a non-profit housing provider or registered charity that serves income-qualified people—including social housing, co-op housing or Indigenous housing—we can help you save on energy costs and improve your residents' homes.

That's energy at work.

Make buildings and common areas more energy efficient

Whether you're replacing a boiler or renovating a multi-unit social housing building, our financial incentives can help make your energy-efficiency improvements happen.

Programs for multi-unit buildings

Program ¹	Rebate	Description
Social housing retrofit support	varies	get funding for an energy study (up to \$5,000), project implementation support (up to \$7,000) and rebates for upgrades to save electricity and natural gas
Commercial new construction	up to \$500,000	get whole-building energy performance incentives for new multi-unit residential, institutional and mixed-use buildings

Rebates for natural gas equipment

Program ¹	Rebate	Description
Boilers	up to \$75,000	for installing eligible high-efficiency boilers for heating an existing or new building
Water heaters	varies	for installing eligible high-efficiency central water heaters for domestic hot water in an existing or new building

Deliver energy-saving upgrades to your residents

You can have our programs for income-qualified residents² delivered to multiple homes in your complex.

Program ¹	Rebate	Description
Energy conservation assistance <i>(with BC Hydro)</i>	free	residents can get a free home energy evaluation, installation of energy-saving products ³ and advice on saving energy
Furnaces and boilers ⁴	\$3,000 to \$3,400 per unit ⁵	for replacing natural gas furnaces or boilers that are at least 10 years old with eligible ENERGY STAR [®] certified models
Water heaters ⁴	\$500 to \$2,500 per water heater	for replacing existing individual residential natural gas water heaters with eligible ENERGY STAR certified models

Energy conservation for your community

To coordinate delivery of the Energy Conservation Assistance Program to qualifying housing complexes, contact our program partner, It's On Electric, at **1-855-560-3227**.

We're here to help

We're working together to help B.C. save energy

¹Terms and conditions apply, which can be found on webpages for each program via fortisbc.com/nonprofit. FortisBC may modify or cancel programs at any time without notice.

²Income-qualified means that the resident's total household income from all sources (including rental and/or foreign income) is within program limits. Current information on income thresholds by household size is available at fortisbc.com/ecap.

³Products installed depend on the individual characteristics of the home and other program criteria. Only FortisBC natural gas heated, FortisBC electrically heated or BC Hydro electrically heated single family homes, townhouses and duplexes are eligible for insulation upgrades. Other program criteria apply. Apartment units and mobile homes are not eligible for insulation or furnaces. Offer subject to change.

⁴This program is funded in part by the Province of British Columbia and the Government of Canada.

⁵Customers must request a pre-qualification code at fortisbc.com/furnaceupgrade between October 1, 2020, and December 31, 2020, to be eligible for this limited-time offer.
